

FSC® CERTIFICATION FOR PAPER AND CARDBOARD

For over 25 years, the globally active organization „Forest Stewardship Council®“ (FSC®) has been committed to the promotion of environmentally friendly, socially beneficial and economically viable management of forests. With globally applicable standards, the involvement of all relevant stakeholders and support from independent environmental and social organisations, the FSC certification applies as the recognised product label for materials based on sustainable forestry.

Good reasons for FSC

- + Worldwide protection of forests and avoidance of wood from controversial sources
- + Marginal additional costs for the use of FSC-certified material
- + Transparent FSC labeling of your products
- + Global FSC standards with the same principles and criteria, guarantee sustainable forest management and supply chains

Three steps to an FSC-certified product

1. Inquiry

Based on your specific product request, we check the availability of FSC-certified materials for your products and offer you alternative materials if required.

2. Ordering and certification

After receipt of your order we will provide you with a specific FSC trademark for labelling your product.

3. Approval of the FSC label

In cooperation with the FSC organisation, we ensure the verification and approval of your print data.

Label

Depending on your requirements, we will create a specific FSC label for your product with the following components:

- FSC logo
- FSC material category
- Product type and label text
- FSC licence code
- Different language versions
- Display in black, green (Pantone 626C) or as negative
